PROBERS PLAN FURTHER LOOK INTO PAYOFFS

By G. MILTON KELLY

Washington (AP)—Senate rackeers probers said today they will explore more deeply into alleged payoffs to Teamsters Union officials in Scranton, Pa.

One question intriguing them is whether—if you can't jail them both—the giver or the taker of a payoff should be prosecuted.

The Justice Department has obtained federal indictments accusing three business agents of Scranton Teamsters Local 229 of receiving illegal payoffs from business firms. The Senate committee conducting the inquiry has ordered its staff to ask why no charges were brought against any of the companies or their officials.

"We are going to find out why they were not prosecuted," Chairman McClellan (D-Ark) told reporters. "It is something we ought to find out."

In reply to a question, he said, "It might be the subject of an investigation."

Meantime, replies to some of McClellan's questions came from outside the hearing.

The special committee, conducting a nation-wide search for evidence of racketeering in labor and industry, wound up public hearings yesterday on alleged violence and terrorism on Scranton's labor scene. But testimony by the three business agents that they are awaiting trial on payoff charges including extortion, opened the new field for inquiry as to what about those who alleged paid the money.

John Durkin, Joseph McHugh and Robert Malloy, union business agents, entered vigorous denials that they dealt in terrorism, as alleged by convicted dynamiter Paul Bradshaw, who described himself as a former strong arm man for the union.

McClellan said the Justice Department would be asked to determine whether anyone should be prosecuted for perjury.

Two Hurt Slightly In Four-Car Crash At Second and East

Two persons received facial bruises and another a summons "excepting his right of way" after a four-car mishap about five p. m. yesterday at the intersection of Second avenue and East street.

Donald C. Wilson, 23, of 209 Crescent Park, was proceeding east on Second when Howard Britton, 47, of 10 Clark street, started south on East from the stop sign. Wilson couldn't avoid Britton and the latter's machine spun around on slippery pavements and its rear slapped into a car being driven north on East street by Rosanne Cochran, 21, of 110 Cone-wango avenue. The Cochran vehicle was knocked into a car behind it which was operated by Jeanne S. Marsh, no address given. Two passengers in Britton's car, Geraldine Barr and Dorothy Britton, complained of facial cuts.

INTO ARMS OF POLICE

Pittsburgh (AP)—A man arrested on a charge of suspicion of burglary literally dropped into the arms of two policemen. Patrolmen George Rosemyer and Warren McGuire heard the Rosen Drug Co's burglar alarm go off. They rushed to the scene just in time to catch Frederick Harrison, 21, who was climbing down a rain spout and let go when he neared the ground.

Betts Distributes End-of-Year Bonus Following Fine Report

Betts Machine Company employees received their end-of-the-year bonus yesterday following a record year, sales wise.

Clifford R. Betts states that a portion of the company's successful growth is attributable to the bonus program, which is based on sincere individual efforts by loyal people working continually to increase the profits of the company. The bonus program, which has been in operation since 1945, entitles the employees to 25 per cent of the company's profits.

The Betts Machine Company is engaged in the manufacturing of valves, lamps, and accessories for the petroleum tank truck industry.

Major Tragedy Averted When Airliner Lands in Flames at Greater Pittsburgh Airport

Pittsburgh (AP)—An airliner landed in flames at Greater Pittsburgh Airport yesterday but thanks to a quick-acting pilot, a calm stewardess and expert fire fighters a major tragedy was averted.

Fifty passengers poured out of the Capital Airlines DC4 seconds after it ground to a halt while firemen riding alongside in trucks poured flame-quenching foam on the plane.

Not a person was injured seriously. Nine were treated either for shock or bruises.

"When we stepped on the ground we thanked God," said Mrs. John Burnham of Buffalo. "He was with us today."

Mrs. Burnham, her husband and two young daughters were on the first leg of a vacation trip to Florida.

There was no indication of an emergency as the big airplane, piloted by R. L. Calhoun of Alexandria, Va., circled the airport and approached for a landing. But the plane landed "hard," an airport official said.

As the passengers tensed, the airport's public address system blared:

"Prepare for a crash landing."

There was a momentary rush of passengers toward an emergency door and some slight panic, Mrs. Burnham said. But stewardess Katherine Szymanski of New Kensington, Pa., shouted, "Keep calm."

Capt. Calhoun, who had alerted the airport, set the plane down in a few seconds.

The Capital spokesman said there was no indication of what caused the "hard" landing on the first attempt. He declared the Buffalo-to-Pittsburgh plane could have possibly been caught in a wind current.

The spokesman said the impact of the landing apparently caused a fuel line or tank to burst.

The gunmen, including a former policeman, walked into a police trap in Mandel Brothers store and were mowed down by police machine gun and shotgun bullets.

The detectives, who had been hiding in the 11th floor credit department for seven hours after receiving a tip on the planned burglary, escaped unhurt.

Inside the wall safe, said William Touhy, deputy chief of detectives, was "approximately \$250,000" in currency. But the gunmen did not get a chance to attempt to open it.

Lt. James J. Lynch said the three men, carrying burglary tools, were about to attempt to open a safe when the detectives ordered them to surrender.

Lynch said the burglars opened fire. The police, armed with three machine guns and four shotguns, exchanged shots, killing all three. It was not disclosed how the men gained entrance to the store, in the heart of the Loop.

Lynch identified two of the men as having been arrested previously. He said one of them, Jimmy Rentner, 30, had been released on bond recently on a robbery charge. He said James Wulf, 28, also had been arrested several times. The third man was identified as James Bertinico.

Bertinico reportedly was carrying a small portable radio which he had tuned to pick up police broadcasts.

When the three burglars entered the credit department—about 12:30 a. m.—they passed without noticing four detectives crouched in a dark corner.

They went directly to a safe behind the cashier's cage. Sgt. James O'Neill said he fired a warning blast above the burglars' head. The spray bullets knocked out the light over the wall safe.

The trapped men then, said O'Neill, returned fire after he had shouted "Police!"

"Hit the dirt," O'Neill commanded the other detectives. The policemen kept up their firing at the cornered thieves. Walls, ceiling and furnishings were riddled with bullets.

Their products, designed by J. H. DeFrees, have been readily accepted as quality improvements, and new products continue to be developed, which the company's officers feel will, also, receive wholehearted acceptance.

In these days of raising costs, the prices of the company's products have not been changed. Much of this is accredited to: (1) Aggressiveness of employees; (2) Improved equipment and methods; (3) Capable supervisors and officers; (4) Expanded work area.

C. J. Kauffman, formerly a resident of Warren, pointed out that the employee's savings account now has \$24,000.00 in it.

Hoax Worked Up by Local Man And German Friend Erupts Into International Headlines Today

A hoax worked by a Warren man and his youthful German friend erupted into international headlines today as prevailing westerly winds around the world were thrown into a blue funk.

It all started when Klaus Feidler, 18, came to this country from West Germany four months ago. With Klaus there came a balloon he had found snared in his homeland. He and balloon took up residence with Mrs. Grace Johnson at 7 Prospect street.

At the Johnson home Feidler, who left Tuesday evening with the draft contingent for New Cumberland, met Will Wakeley, who works at Sylvania. They worked up a scheme which resulted in the following dispatch being flashed across the country by The Associated Press today:

Quaker City Carpenters Demand Coffee Break

Philadelphia, (AP)—Carpenters in the Philadelphia area are now trying to make legal what lots of other workers have been doing for years. To wit—the coffee break.

Along with increased wages, they're asking contract language specifying 10 minutes for java at 10 a. m. every working day.

The Federal Mediation Service has stepped into the dispute in hopes of averting a strike which could tie up all nonhome building in a five-county area of southeastern Pennsylvania.

Fugitive Sought For Murder Kills FBI Agent and Suicides

Suffield, Conn. (AP)—Francis Kolakowski, sought as a killer and payroll bandit, today killed a FBI agent and then committed suicide.

The agent, Richard P. Horan, and State Police Capt. Philip Schwartz had entered a house where Kolakowski's sister lives and were in the basement when a shot felled Horan. Schwartz pulled Horan under the stairway.

Seconds later another shot rang out. Police found Kolakowski dead on the kitchen floor from a shotgun blast in the head.

Police had sought Kolakowski for the March 29 slaying of his wife in Hartford, and as a prime suspect as the lone bandit who stole a \$66,573 payroll from the Hartford Machine Screw Co. in Windsor just a week ago.

It was about 9:45 this morning when Mrs. Wanda Slater, Kolakowski's sister, was in the kitchen. Her two children were in school. "Hey Wanda," came a voice.

She saw a man's figure behind high grass and shrubbery. Fearful it might be her brother, Francis, she dashed into the family car, and drove off to the police station.

She directed Police Chief Frank Sutala and officers to her home.

First British Passing Through Suez Canal

Suez (AP)—The 3,604-ton freighter West Breeze entered the Suez Canal today flying the red ensign of Great Britain. She was the first British ship to start through the waterway since the British-French invasion last October.

Transit tolls for the West Breeze were paid in francs, and an Italian pilot of Egypt's Suez Canal Authority was put aboard for the 103-mile trip northward. The British freighter was the second ship of a four-vessel convoy.

Chartered by a Chinese navigation company in Hong Kong, the West Breeze is carrying a cargo of peanuts from China to Rotterdam.

Tense Atmosphere in Middle East Is Reflected by Number Of Visitors in The Holy City

By The Associated Press

Christians throughout the world commemorated today the agony of Christ's death upon the Cross.

In Good Friday services the Christian faithful of all nations heard anew of the suffering of Jesus Christ—two days before the joyous occasion of His resurrection on Easter Sunday.

Approximately 4,000 visitors, mostly Arab Christians, were in the Arab-controlled Old City of Jerusalem, where most of the holy places are located. Only 400 pilgrims, with few Westerners among them, crossed the Palestine armistice frontier from Israel.

The small number reflected the tense atmosphere in the Middle East in the aftermath of the Sinal war. Travel restrictions were removed too late for any great tourist influx.

But as in the past there was the traditional tracing of the Way of the Cross, with pilgrims carrying heavy wooden crosses along the route followed by Jesus from the scene of his trial to the crucifixion on Calvary.

It was Easter week for both Eastern and Western Christians. They follow different calendars, but this year the dates coincide. In addition, Moslems celebrating the Ramadan prayed at the Dome of the Rock, and Jews were completing their Passover holidays.

At the Vatican, pilgrims from many countries assembled in St. Peter's for Tenebrae services. The highlight of the mournful service is the slow extinguishing of all but one of 15 altar candles. The remaining candle, symbolic of Christ, was hidden momentarily behind the altar as a loud noise reminded worshippers of the convulsions of nature at the moment Jesus died.

Pope Pius XII will deliver with radio systems of nearly a score of nations. For the first time the papal address will be put on European TV. He speaks at noon, Rome time, from the balcony above the central door of St. Peter's.

In Konnersreuth, Germany, 3,000 pilgrims gathered in the rain outside the cottage of Therese Neumann, the 59-year-old Bavarian woman who each Good Friday appears to suffer the agonies of Crucifixion. In 1926 she was first reported to have displayed the Crucifixion stigmata on her body corresponding to the wounds of Christ.

President Chiang Kai-Shek and his wife, both Methodists, delivered Good Friday sermons at their church in a suburb of Taipei, the capital of the Chinese Nationalist stronghold island of Formosa.

McDonald Is Re-elected Steelworkers President

Pittsburgh (AP)—David J. McDonald has been re-elected president of the United Steelworkers, the union announced today.

Tellers reporting on the official ballot count said it showed he received 404,172 votes to 223,516 for Donald C. Rarick, his opponent who started his campaign on a protest against a union dues increase.

Rarick, a 38-year-old steelworker in McKeesport, Pa., was a complete unknown at the time the dues protest drive began after the USW's 1956 convention voted a \$2 monthly increase in payments by the membership.

McDonald, 54, has been associated with the union since its founding, worked closely with the late President Philip Murray and succeeded him as the union's top officer in 1953. His election is to his second four-year term in the post which now pays \$50,000 a year.

He wrote Ina that it took some time to get the direction cards translated, adding: "It is hard to believe that these balloons came all the way from Holland and we would appreciate knowing if this really happened or whether it is a joke."

"They were found March 30, 1957, but looked as if they had been there for a long time. We eagerly await your answer with details and personal information and some pictures of the children for our newspaper."

The letter was received here yesterday. Now Ina and her family are framing a reply with the pictures that Willie asked for.

Seventeen Cities Plan To End Fast Time Oct. 27

Harrisburg (AP)—Seventeen Pennsylvania communities now plan to end Daylight Saving Time this year on Sept. 28. Thirty-three plan to extend it until Oct. 27.

The State Chamber of Commerce reported the figures yesterday in a preliminary survey. Daylight Saving Time begins April 28 and in Pennsylvania its observance is a local matter.

"Several cities in the September termination list indicated they might extend their DST observance an extra month if the practice is widespread," the chamber reported.

CONGRESS IN RECESS OVER THE HOLIDAY

By JOE HALL

Washington (AP)—Members of Congress scattered to their homes for a 10-day Easter recess today after freeing the 275 million dollars needed for relief checks to the aged and others in May and June.

The money for the federal share of the public assistance payments had been tied up in a dispute which has gone on with increasing bitterness between the House and Senate since February.

House members could claim a substantial victory, but senators vowed they would try again to get some of the money denied by the other branch.

The final version provides no money to continue a minerals buying program on which the Senate had insisted. President Eisenhower had asked 30 million dollars. The House declined to vote anything.

Also dropped was a Senate provision to authorize use of cottonseed cake and other high protein feeds in government drought relief programs. This had the backing of Senate Democratic Leader Lyndon B. Johnson of Texas.

In the final windup on the bill yesterday, the Senate was victorious on one point, but this was not an issue involving any substantial money savings.

The House repeatedly sought to tie to the bill a limitation on the amount of federal funds that could be given to the states to help pay the cost of administering federal grants.

Welfare Department officials said that under the limitation, the federal government could not meet its obligation to the states. The 1935 Social Security law requires Washington to pay 50 per cent of the administrative costs.

New Ambassadors Named to Colombia, Sweden and Mexico

By MARVIN L. ARROWSMITH

Augusta, Ga. (AP)—President Eisenhower today picked new ambassadors to Mexico, Sweden and Colombia.

In advance of getting in a round of golf on this first full day of his Easter holiday, the President announced his intention to nominate:

Robert C. Hill, now assistant secretary of state for congressional relations, as ambassador to Mexico.

Francis White, career diplomat who is now envoy to Mexico, as ambassador to Sweden.

John M. Cabot, who moves from the embassy in Sweden to become ambassador to Colombia.

Eisenhower flew here yesterday for about 12 days of golf mixed with work. He was in his office above the pro shop at the Augusta National Golf Club at 8 a. m. today and spent two hours there before getting out on the links.

James C. Hagerty, White House press secretary, announced that Secretary of the Treasury and Mrs. George M. Humphrey will be the guests of the President and Mrs. Eisenhower over the Easter weekend.

Eisenhower sent his private plane, Columbine III, back to Washington for the Humphreys. Also getting a lift aboard the Columbine.

Plans Are Completed For Annual Easter Egg Hunt Saturday

Final details for the annual American Legion-sponsored Easter Egg Hunt have been completed and all that is lacking is the scramble of kiddies anticipated at 2:00 p. m. Saturday at War Memorial Field.

Warren merchants have been very generous this year, the Legion committee reports, and many fine prize eggs will be scattered about the field. Children finding these eggs are asked to take them to the merchant whose name is attached in order to receive their prizes.

Signs will be placed on the field to designate the starting line for each age group. In order that confusion may be lessened, and all Legionnaires are asked to be present to lend a hand.

Governor Designates State Mothers Week

Harrisburg (AP)—Gov. Leader has designated the week of April 28 State Mothers Week in Pennsylvania.

He said in a proclamation that the week was dedicated to Mrs. L. B. Moseley of Pittsburgh, recently named Pennsylvania Mother of the Year.

Leader also proclaimed 1957 the Lafayette bicentennial year, honoring the 200th anniversary of the birth of the Marquis de Lafayette, a major general in George Washington's continental army.

Northern Area Directors Plan Special Meeting May First To Discuss the 1957-1958 Budget

A detailed study of the proposed 1957-1958 annual school budget made up the major portion of the April meeting of the Northern Area Joint School Board. This budget, which had previously been tentatively adopted, was directed for further study before the meeting adjourned, and a special meeting of the full board to give it additional study was scheduled for Wednesday, May 1.

The supervising principal's report, submitted by Everett Landin, contained information which was valuable to the budget's discussion. Each district's share of the budget expenses was presented, and the anticipated reimbursement from the State which each district can expect to receive was stated.

Word from the State Department, relayed to Northern Area through the office of the county superintendent, revealed the coming year's reimbursement fractions were \$816 for general purposes and \$774 for building purposes in Farmington Township. Similar fractions for Pine Grove Township were \$421 and \$210 and for Sugar Grove Union they were \$963 and \$899 respectively. Another item of important budget information was the new assessed values of Northern Area districts.

The meeting was under the direction of Travers Stohberg and several reports comprised much of the evening's business. Details, bills and letters or appreciation which concerned the recent dedication ceremonies for the new General Dwight D. Eisenhower High School were presented through the supervising principal's report. (An invitation to Northern Area directors to attend a special meeting of the Warren County Unit, Pennsylvania State Education Association, which featured a program concerning the proposed integration of Social Security and the Pennsylvania School Employees Retirement was read to the board's membership. An invitation to attend a special meeting concerning the Driver Training was also read and members approved Northern Area's participation in it.)

A concert which the Warren Boy Choir will present in the auditorium of Eisenhower High School on Sunday, May 5, at 3:30 p. m. to benefit the library, was announced and authorized. A report of the senior's class trip to Washington, D. C., was also provided.

Mrs. Hazel Kays, board secretary, read minutes of the board's previous meeting. She also presented bills which total \$2,252.38 for elementary school and \$7,100. for high school.

Several of the board's standing committees contributed to the meeting decisions. The transportation committee and staffs are preparing a revised and up to date population and bus route map and are expecting to complete it within the next two weeks. The personnel committee reported a number of applications have been received and has set April 29 as a date in which it will consider next year's teaching staff needs.

Floyd Marsh, chairman, presented his group's report. At his committee's recommendation, two teachers, William Goldsmith, principal of the Russell Grade School, and Mrs. Pauline Norton, a high school English teacher, were granted permission to enter summer session classes in the Pennsylvania State University on Monday, June 10, despite the fact that Northern Area Schools do not close for summer recess until late that week.

A report was received from the athletic committee which had met a meeting earlier in the evening, and the date of Wednesday, April 24, was set as a meeting date of the building committee.

Other business of the evening was varied in nature. The purchase of a used grand piano which had been placed in the new school for use during the school's dedication ceremonies was authorized and referred to the staff.

Harold Landin was officially instructed to develop a plan whereby future senior classes who wish to take the school-sponsored senior trip to Washington, D. C., will begin to plan and prepare for it as sophomores and use a planned group banking system to lay aside a portion of the cost from personal funds with a portion of the cost only as a class responsibility.

Assistance which had been received during dedication events was gratefully recognized.

Atomic Radiations Keeping Tabs Upon Furnace Titanium

Pittsburgh (AP) — Westinghouse Electric Corp. is using atomic radiations for the highly intricate job of keeping tabs on molten titanium in a new electric arc furnace.

Dr. Daniel Alpert, associate director of the Westinghouse Research Laboratories, disclosed today that the unique control method has been put into operation at the company's meals development plant at Blairsville, Pa.

The new method utilizes high-energy gamma rays emitted by radioactive cobalt to keep a 12-inch titanium ingot inside the furnace at just the right level. Any deviation is automatically corrected.

Dr. Alpert explained that successful operation of the furnace, used to prepare purified titanium metal, requires precise control of the ingot's molten surface. And the control must be foolproof and fast-working.

Control by gamma rays, Dr. Alpert said, "brings a new degree of reliability and safety to titanium arc furnace operation. It is a critical job of measurement and control which would be very difficult to handle by any other means."

Twenty-five years ago, boys of the community, members of the Boys' Department of the YMCA, paused on the steps of the Y to have their picture taken, before leaving on a hike. Then, as today, the Boys' Department was crowded by groups of boys under Christian leadership learning to be future leaders of our community. This

year's big event, the annual banquet, to be held on May 2nd, will feature stories told by the boys themselves, about some of the character and health-building programs conducted this past year. Guest speaker for the evening will be Max Darone, general secretary of the Erie YMCA who will speak on "The Dimensions of the YMCA."

Fathers tell Sons about the WARREN NATIONAL BANK

It means a lot to a boy to be close friends with his father. He's apt to want to look like him, dress like him, be like him.

If he sees his father's regular deposits at the bank bear interest and build up enough to buy himself a bicycle, he's likely to take up the habit of thrift for himself—and later, for his children.

One of the best favors that parents can do for their children is to start 'em young with a helpful, soundly managed bank. And who could be more welcome here than the young people whose families have dealt with us for years!

"THE ETERNAL AND THE TEMPORAL"

II Cor. 4:18 "The things which are seen are temporal; but the things which are not seen are eternal."

When a child is learning to count, to start by telling the child that two plus two equals four, is to talk in terms the child's mind cannot grasp. But show the child two apples, then add two more, and then watch the child count the four of them. That's something the child can see and understand. Very simply that illustrates our difficulty in talking about the immortality of the human soul. We are dealing with a subject we cannot handle and see and taste. But it would be a big mistake to say that just because immortality is not of the seen world it is therefore unreal.

Every day the most critical of us accept the unseen world without question, doubt never entering our minds. For instance, how many of you have ever seen a human thought? But none of you will doubt your power to think. You have not seen love, but you have seen what love can do. You have never seen a radio wave, but not having seen it does not lead you to throw your radio away. All around us, every day, is the unseen world and we accept it without question. It ought not to be too difficult then to believe in the eternal values of the unseen world.

To believe that the unseen things of the spirit are eternal is a reasonable hope all of us can hold. Professor Montague of Columbia University has said that the crucial issue is whether "the things we care for most are to be at the mercy of the things we care for least." This sometimes does happen in the temporal world. This which we care for most is apparently at the mercy of the political fortunes of the major powers of the earth. One of the real tragedies of modern war is the destruction of lovely cities and beautiful cathedrals which took hundreds of years to build. That which man cared for most at the mercy of what we care for least. Or consider even a broken friendship, broken by mean and dishonest gossip and once again, that which we care for most has been at the mercy of that which we care for least. Now, we can rebuild cities, cathedrals, perhaps even broken friendships... but if a man die, what then? This is the question we must be sure about. If we lose a loved one, what then? Are we to believe then that that which we have cared for most is to be at the mercy of that which we care for least?

Easter is a continual reminder to the Christian world that "What is excellent, as God lives, is permanent." It tells us that the things which we see are temporal, but the things of the world of values, which are not seen, as God lives these things are eternal. The Easter call to faith is this... That when a human life changes its garments and lays aside this earthly form (which, of course, is of the earth and will return to the earth), when this happens, life then assumes a new mantle, a new and heavenly garment. That part of us we call our personality... That, as God lives is permanent!

During the World War a Canadian soldier saw his best friend, one whom he had known well, trusted, admired and loved... saw him blown to bits by a shell.

Standing silent for a moment, stunned and shocked, he then quietly said, "It will take more than that to stop him."

So our Christian faith on Easter Day hurls its glorious and victorious challenge into the very face of death...

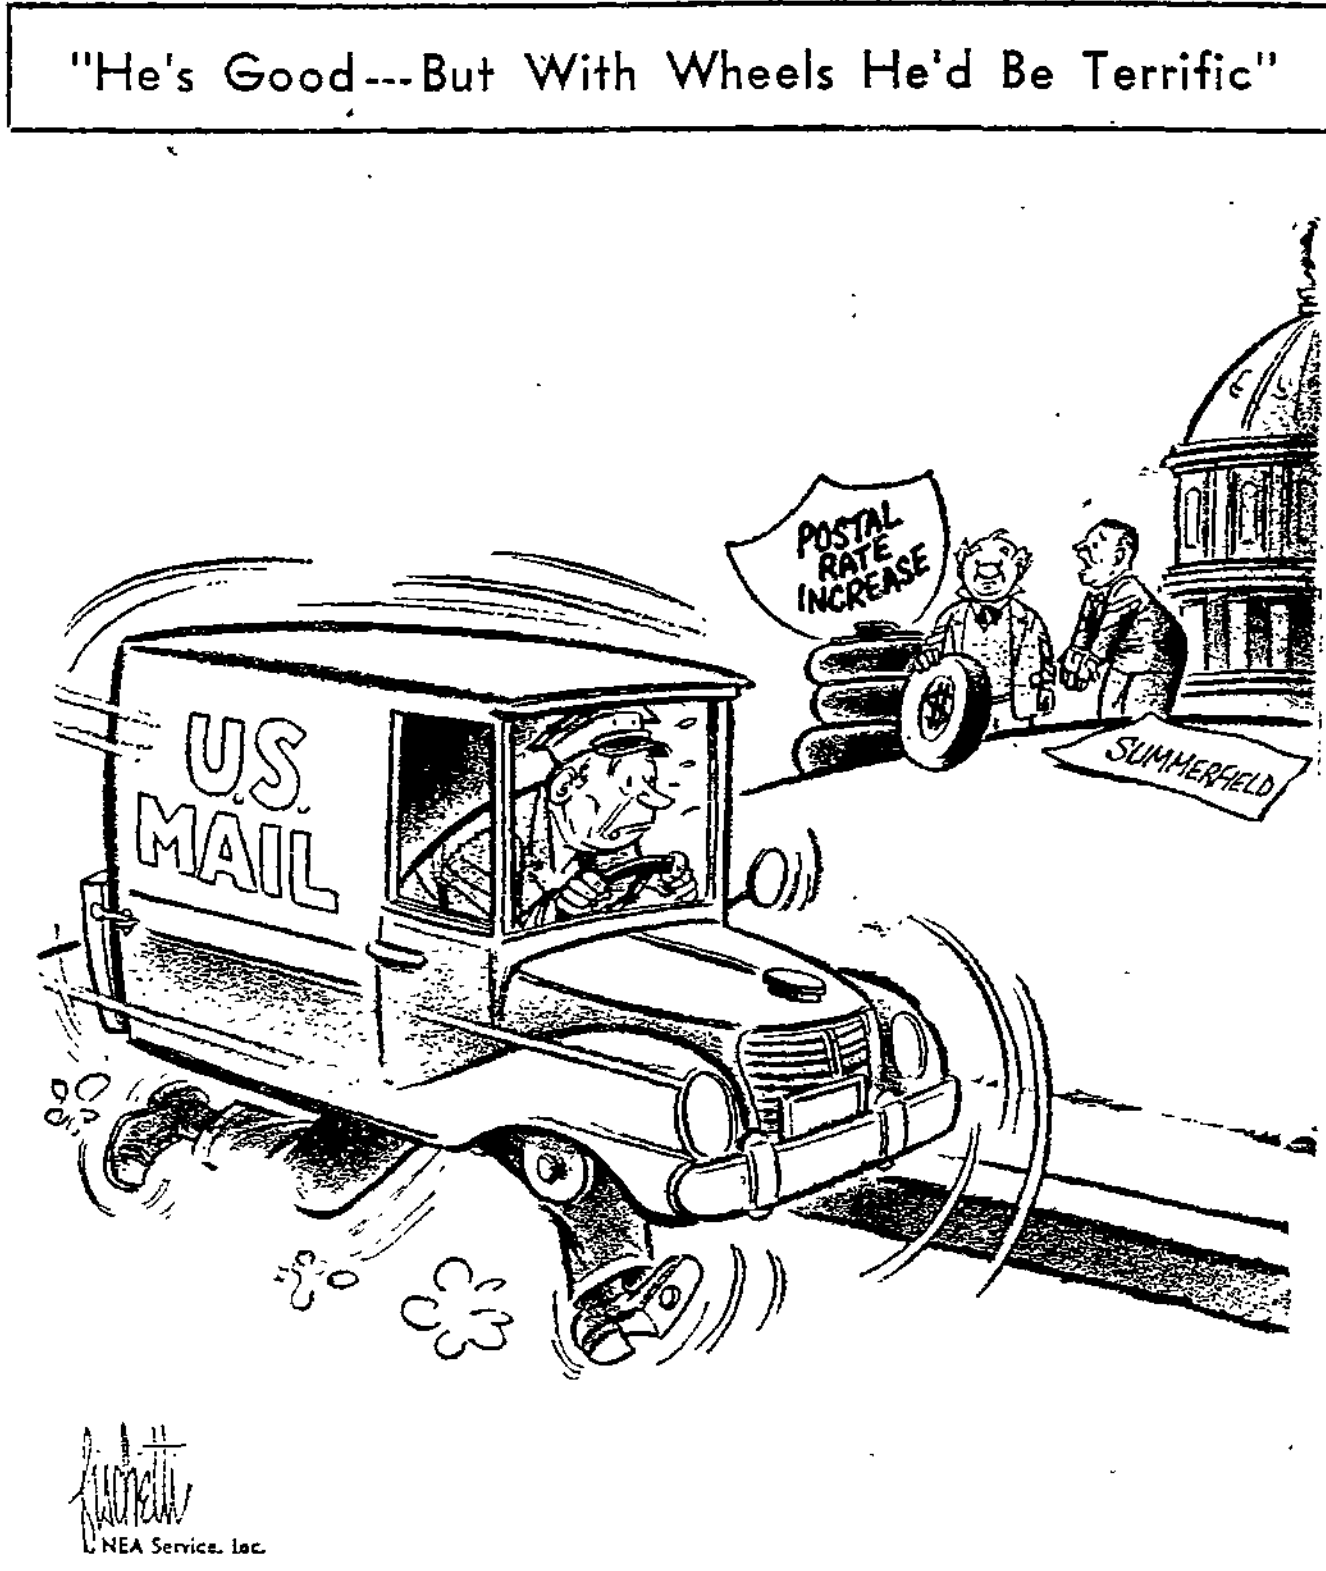

"Death, you can do many things. But Christ defeated you, and by the power of Christ, you cannot stop my immortal soul!"

THOUGHTS FOR TODAY

And we are his witnesses of these things; and so is also the Holy Ghost, whom God hath given to them that obey him.—Acts 1:8

.....

A religion without the Holy Ghost, though it had all the ordinances and all the doctrines of the New Testament, would certainly not be Christianity.—William Arthur.

Here and There

The ten best "hatted" and ten "suted" women in America have been named, just in time for the Easter parade, by a group of millinery designers and the Custom Tailors' Guide, a dispatch from New York says. Movie actress Audrey Hepburn was the only woman to make both "best" lists. She nudged out Elizabeth Taylor as the best-tailored woman in the movies, the Custom Tailors Guild said after a poll of its members. The milliners' list of "the 10 best chapeaued women in America" also included Mrs. Dwight D. Eisenhower; Mrs. Ivy Baker Priest, U. S. treasurer; TV star Arlene Francis; Mrs. Cornelius Vanderbilt Whitney and Mrs. Cyrus McCormick, socialites; Lauren Bacall and Joan Crawford, actresses; Canadian soprano Mary Bothwell and Mrs. Titus Haffa, a Chicago hostess. On the tailors' list were actress Rosalind Russell, Opera star Maria Callas, TV singer Denise Lor, swimmer Esther Williams, businesswoman Jacqueline Cochran, dancer Marge Champion, recording artist Jean Martin, and the Dutchess of Windsor and Mrs. Clare Boothe Luce, who were named best in the fields of society and diplomacy.

Down at Franklin the Retail Division of the Chamber of Commerce has approved a streamlined store hours plan, considerably different than anything now in operation in the section. The program will feature Monday and Friday evening shopping and an all-day closing each Wednesday. Ballots sent recently to all 42 members of the Retail Division provided a choice of five possible store hour plans. Merchants were asked to "vote for two" and the decision between the two was made by the 20 members attending the special Monday night meeting in the Chamber offices. The new plan will go into effect May 2, the same date selected for the recently announced change in city banking hours. The Wednesday closing will be abandoned during November and December. It was reported there were no votes cast against the proposed Monday night. At least two merchants stated flatly they would "not close" all day Wednesday. "Closing a full day in the middle of the week cannot be considered in the service of the buying public," one businessman stated.

His many Warren supporters and admirers were just a little disappointed to learn that Congressman Carroll D. Kearns at a Washington meeting held this week endorsed the "Shortway Route" for a proposed east-west highway in Pennsylvania. The lawmaker said he was satisfied with the route so long as branching off near Portersville to Erie. Backed by Gov. George Leader, the Shortway Route would pass near Hazleton, Easton, Allentown, Sunbury and Reading. Kearns made known his position at a meeting of a group of Pennsylvanians who met with Federal Highway Director Bertram Tallamy, Rep. Clark (D-Pa.) charged that Tallamy was trying to divert the superhighway to New York state at a point north of Port Jervis, N. Y. Would have been nice to contemplate the popular Congressman as being with the advocates of the Route 6 program, rather than the Shortway.

This reminder that balmy weather is just around the corner is from the Salamanca Republican Press: Always welcome is the shrilled arrival of the vanguard of the Hyliads, and rarely more so than after the snows and wintry weather of the first part of April. The shy little firsttreads are among the first of nature's children to proclaim their confidence that spring is really here and settled warm weather not far away. They breed in swamps and ponds, and their piping notes are convincing evidence that the annual pilgrimage from land to water has begun. Arboreal habits are forsaken for the duration. The Hyliads must expect to be frozen into silence three times before the advancing season gives assurance of fairly continuous warm weather, according to folk lore. But they seem to mind not at all, and each recurrence of mild weather after a cold snap brings them out in force to join in a great chorus of spring-time.

Washington Letter

BY PETER EDSON, NEA Washington Correspondent

WASHINGTON—(NEA)—Nerve-wracked American parents—hardened to tripping over stray roller skates, doll baby carriages, other wheeled toy implements of torture and model airplanes—will soon have a new obstacle to hurdle in the home's darkened halls.

It will be a working, scale-model rocket or guided missile. Not just a toy imitation, but a real, live, for-sure-enough job that will go 100 feet when properly charged and triggered.

This was one of the more surprising sidelights coming from the American Rocket Society's Washington meeting in cherry-blossom time.

Athelstan F. Spilhaus, dean of the Institute of Technology, University of Minnesota, touched off this prospect in his address to the Rocket Society's final banquet.

DR. SPILHAUS was in Washington primarily to talk about the use of rockets and satellites for observations of the sun and outer space during the International Geophysical Year 1957-58.

Most of the time he was "way over the heads of common folk with talk of the third dimension of geophysics, synoptic views from space satellites and such. But he got right down to earth and the family hearthstone when he spilled over into the youth division.

He noted with approval the growth of amateur rocket societies throughout the country. The one closest to his own home is the Minnesota Amateur Rocket Society. Its initials spell out the word MARS, which is where the young geniuses are unquestionably headed when they grow up.

Requirements for MARS membership are that each applicant be at least 12 years old and shall have built a rocket that has soared at least 100 feet.

A TOY ROCKET that will go 100 feet, one-third of a block, need be no bigger than a small baseball bat. But it takes on chemical fuels, it makes smoke and fire and it can go bang. For anyone who gets in the trajectory of a toy rocket, the consequences can be almost dire.

But does this alarm the grown-up scientists any? Not on somebody else's life. They seem to think that rocket clubs should be encouraged.

A model rocket, says Dr. Spilhaus, is certainly not more dangerous than fireworks. A model rocket is a lot less lethal than junior's stripped-down, hot-rod sports car, or an older, high school group's game of "chicken" in the family station wagon.

IT HAS TAKEN 50 years to bring fireworks under control and make Fourth of July reasonably safe and sane. The old-fashioned sky rocket has been all but outlawed as a community fire hazard. As for the automobile, safe-driving campaigns do seem to be catching on a little, since the White House has set an example.

But now along comes science to lead flaming youth astray in outer space with juvenile rocket clubs.

Youth must be served, admittedly. But any self-respecting parent may well ask where it will all end.

"I hope these serious rocket clubs of teen-agers may in some way be encouraged with necessary safeguards," says Dr. Spilhaus—himself the father of five.

"I hope this exciting motivation will not be banned because of hazard, but rather that the hazard will be controlled so the children will be in no greater danger than walking the ridgepole of a barn in our own younger days."

How's that again? No more dangerous than what?

Facilities Needed for Special Education Work

Urgent need for an additional classroom and teacher for special children in Warren was stressed by Mrs. Olga Kyofski, elementary teacher of mentally-retarded children in Warren, at the April meeting of McClintock PTA.

She gave a most interesting and informative talk on her work with these children and answered innumerable questions from the PTA members. She stated at the present time there are only two classes of this type in Warren and at least three are needed.

At the regular business meeting conducted by the president, Mrs. Adelaide Welsh, the nominating committee presented the following slate of officers for next year: President, Mrs. Adelaide Welsh; vice president, Mrs. Rita Grillo; secretary, Mrs. Eva Brown, and treasurer, Mrs. Ann Simmons. Mrs. Jeannette Rulander reported on the legislative conference for the Northwest District PTA, was held in Sharon.

Mrs. Eva Brown gave a report on Community PTA Council meeting held recently at Beatty School. She announced tickets are available from PTA officers for the Penn State Blue Band Concert on May 1, also that Council will present the play "Fairy Gold" on May 4. Proceeds from both of these events are to go to the Scholarship Fund.

An auditing committee was appointed with Mrs. Rita Grillo as chairman, Mrs. Harold Sedon and Mrs. Ross Ananea assisting. McClintock PTA's rummage sale will be held May 10 and 11th in the building next to the East Side Walker Store. Attendance awards were won by the afternoon kindergarten and first grade.

Refreshments were served from a table attractively decorated in an Easter motif by afternoon kindergarten mothers under the chairman, Mrs. J. Kramer, assisted by Mrs. R. Ananea, Mrs. S. Fazio, Mrs. R. Lyle, Mrs. D. Cummings, Mrs. J. Schneider, Mrs. F. Zingone, and Mrs. G. Kaleina.

Pushy Mothers Won't Let Daughters Grow Naturally

GIRLS don't have any childhood these days, I recently heard a sweet-faced grandmother remark. And I think she has a point. They don't have very much. Many of them get their first permanent waves before they start to school.

At an age when they should be climbing trees and skipping rope, their mothers are training and grooming them for future "popularity."

By the time they are through junior high they are bored with formal dances, a corsage is just another bunch of flowers, and they are looking at the label instead of the dress when they go shopping. They can't even eat with enjoyment—because, with even more self-control than their mothers, they are counting calories.

Unless they have old-fashioned mothers—and few of them do—they completely miss the childhood stage of being tomboys.

NO FUN, JUST FALSE STANDARDS

THEY are hair conscious, figure conscious, clothes conscious and popularity conscious.

But they suit their mothers, who keep pushing them ahead as fast they never know what childhood really is.

Boys are luckier. But even they are having to start dating before they really give a hoot about girls because the girls' mothers are giving dances for their daughters.

It is sad that today's mothers hold so little regard for childhood they can't wait for their daughters to grow up but keep pushing them toward adult ways and adult standards.

Why can't they let them be children until they decide for themselves that they want to be grown-up?

Bridal Heirloom Can Look Like 'Something New'

BY KAY SHERWOOD
NEA Staff Writer

THE "something old" for the bride's wedding outfit is often a cherished family heirloom which adds priceless tradition to the occasion. From an attic trunk a carefully wrapped tissue-paper package yields the treasured piece of lace, the fragile embroidery, the delicate crochet work, perhaps even the gown or veil itself.

What if the heirloom needs something more than a good airing?

It's almost impossible to generalize on the renovation of old fabrics and heirloom finery. Methods depend on variables such as fiber content, soil content, age and type of storage.

However, here are a few suggestions:

If the "something old" is of manageable size and is made of fine cotton or linen, you may want to try laundering it at home. But most of us can't be so courageous as Helen Virginia Meyer, fashion historian who has a collection of unusual fashions dating from the early 1800's. She washes everything.

The washing methods for old fabrics differ radically from ordinary wash-day procedures. Most of the authorities I talked with use lukewarm distilled water; really soft water might do just as well, they say. The minerals in hard water are damaging to any fine fabrics, particularly old ones.

SOME AUTHORITIES use soap, many recommend fine synthetic detergent suds. All agreed that after fabrics are wet they should not be touched unless absolutely necessary.

You may find it easier to wash and dry a bit of fine lace, if you first baste it to a piece of netting or fine linen. Be careful the needle doesn't split the lace threads.

One popular washing method is to fill a big jar—half gallon or so—with soft water and suds, drop in the finery, cap tightly, and gently rock and roll the bottle. This squishes the suds through the fibers without undue handling. After washing, uncap

Young bride-to-be refurbishes strip of heirloom lace by wrapping it around bottle, where it can be sponged clean with little strain or rubbing. Elegant lace collar, freshly washed, is ready for sun bleaching. Suds are smoothed over the fabric, which rests on waxed paper on a towel.

the jar and let running water float the suds out and rinse the article. Drain, turn out on a towel and blot up excess moisture.

Another method is to wrap lace around a bottle, cover with a piece of netting and sponge the delicate handiwork with suds. Sponge or spray rinse.

Yet another method favored for extremely delicate pieces is to place the article between two pieces of plastic mesh or net, making it possible to wash and dry the fabric without ever touching it. Fill a shallow pan with softened suds and lower the net-protected heirloom into this. You can squeeze suds through the fabric with a sponge and then spray rinse. Dry on a towel.

Don't use bleaches on delicate fabrics. If a piece is yellowed try Miss Meyer's method of sun bleaching. She wets the item with suds, then places it on top of aluminum foil or wax paper in

the sun. The foil or paper reflects evaporation and intensifies the bleaching action.

PRESSING THE FINERY usually requires a press cloth between fabric and iron. Steam from an upended steam iron, a teakettle or pan of boiling water will bring up the nap of a material or the texture of embroidery.

If you are reluctant to handle a valuable heirloom or anything as sizable as an antique wedding gown, you will probably ask the help of the best dry cleaner you know.

Don't be taken aback, warns the National Institute of Drycleaning, if the cleaner agrees to handle the fabric at your risk. He's aware of its fragility as you are. Old garments should be cleaned by hand and most dry-cleaners assume this, but it's wise to insist on it.

When you pack away the fine heirlooms after the wedding, it's wise to follow Grandma's lead and use tissue paper. Use it between layers of fabrics; use it to round folds instead of creasing them.

Pack any fragile fabric as flat and with as few creases as possible. Seal the package to keep out moisture. Store in a dry place (back to the attic!).

One caution from the National Institute of Drycleaning's researchers: If the new or old wedding gown is packed in a plastic package that isn't vacuum-sealed, changes in temperature outside the package can cause it to sweat inside and moisten the garment. Mildew is the unhappy result.

Periodically, stored garments should be taken out and aired to relieve the strain on folds and remove the moisture.

tendance award. It was announced the next meeting will be an open house honoring Mrs. James Cable for 25 years of teaching at the school.

The program chairman, Mrs. Olson, presented as guest speaker Mrs. Georgia Coyle, Warren Librarian, whose topic was "Relig-

ious Understanding". A film, "The Doctor Speaks His Mind", was shown by the Cancer Society. Refreshments were served by a committee of first grade mothers, Mrs. Adam Bosco, chairman; Mrs. Harold Peterson, Mrs. Kenneth Lind, Mrs. Helen Swanson and Mrs. Bob Johnson.

Three Parishes Combine For Impressive Service

Fourteen persons from three area church congregations entered the waters of baptism in a very impressive service in First Baptist church last evening. Members and friends of First and Calvary Baptist and Starbuck Community churches filled the sanctuary and partook in Christian fellowship of the bread and wine of the communion table.

The Rev. G. Forrest Sparks opened the service with a warm welcome to the visitors and members of visiting congregations. Scripture, prayer and hymns followed, with an Easter anthem by the host choir, Mrs. Florence Stevens directing and Mrs. Carl Whipple accompanying.

Rev. Paul Obinger, Calvary pastor, spoke from the baptismal, first thanking the host pastor and congregation and then presenting a brief meditation on Holy Baptism.

During the service, Sally Confer and Linda McKelvey were baptized by Pastor Obinger; Mr. and Mrs. Howard Brown and Mrs. Mabel Kellogg, by Rev. H. L. Cartwright; Lois Hendrickson, Sharon Johnson, Mrs. Gloria Johnson, Kathleen Tipton, Ann Sandeen, William Quackenbush, William Eldridge, Douglas Lind and Royce Black, by Rev. Sparks.

Preceding the communion service, the choir presented a second anthem. The three pastors presided at the communion table, with four deacons from Calvary church and seven from the host church serving. New members were welcomed by their respective pastors, Rev. Cartwright brought a brief meditation on Holy Communion, and Rev. Sparks conducted the communion rites.

One of the most impressive of the Holy Week services was brought to a close as the three congregations joined in singing "Blest Be the Tie That Binds".

The Mature Parent

Child Needs a Chance to Make His Visions Real

BY MRS. MURIEL LAWRENCE

IN the magazine's fashion section was the picture of a junior frock made of blue gingham with white polka dots. Under it the caption gave its pattern number and its making costs at \$5.

Ann, 13, thought it the prettiest dress she'd ever seen. Everything about it—its puffed sleeves, heart-shaped neckline, the three ruffles around its skirt seemed all brought together for the sole purpose of beautifying her. She thought passionately, "Oh, if I could turn this picture dress into a real one, how hard I'd work to make it—how carefully I'd cut and pin and sew!"

But to her request for the money to make it, her mother only said "I'll see."

HER thoughts went like this: "Certainly the child needs a new dress. But if she makes one, she may botch it. Then I'll have thrown the \$5 away. How much wiser I'll be to add another \$5 to the one she asks for—and buy her a store dress I'll be sure she can wear."

She was not wise. Though she bought the expertly made dress, getting it gave no release to energies in Ann which had been stimulated by the idea of the other one. So they behaved just like a river that's got blocked by a log jam. They turned destructive, flooding backwards over her family in days of complaining, fits of moodiness and irritability.

Under psychoanalytic treatment a patient once said, "My failures have been the result of working out other people's goals instead of my own."

That was a vital discovery. It seems to be a fact that failures are indeed our secret, roundabout, resentful way of resisting other people's ambitions for us—our withdrawal of energies from effort forced on us by somebody else's expectations.

BUT when in childhood we are allowed to make real our visions of a dress or an orange-crate express wagon, then like the straight-flowing river that powers great factories, our productive power moves steadily forward.

We don't remember that the dress and express wagon looked funny to the people who didn't create them. What we carry with us is our successful experience in working visions through into reality.

It is fine when parents begin to understand that their own failures have been only rebellion against other people's expectations of them. Out of this understanding we develop what may be our most important asset to Ann—our alertness to the difference between her dependent demands on our energies and her demands to create from her own.

Cincinnati Manager Charges Milwaukee Ace Lew Burdette Is a "Cheating Spitballer"

By ED WILKS
The Associated Press
Here we go again. Lew Burdette says he doesn't throw a spitball. Birdie Tebbets insists he does. "A cheating spitballer," says the Cincinnati manager. But Warren Giles says "you have to prove it to me."

Whatever Burdette, Milwaukee's shutout ace, does when he spins his stuff for the Braves, old Satch Paige had a term for it—"outspychologizin' the hitter."

That's what Burdette had in mind when he said "It's the best pitch I've got—and I don't throw it," in reply to Tebbets' renewed cry after the Redlegs lost to the big right-hander 1-0 yesterday. It was the eighth successive time Burdette, who led the National League with six shutouts midst similar 'spitter' charges last season, has whipped Cincinnati and Tebbets in a "pretty tired of him getting away with murder."

Legal or not, Burdette's victory fashioned on Hank Aaron's first home run of the year in the sixth inning off loser Hal Jeffcoat, handed the winless Redlegs a second defeat and left the Braves and Brooklyn Dodgers the only unbeaten clubs in the league.

The Dodgers, with Sal Maglie throwing a four-hitter, knocked off Pittsburgh 6-1. The Chicago Cubs cracked 15 hits to defeat the St. Louis Cardinals 10-2. And the New York Giants kept Philadelphia winless 6-2.

Maglie Pitches His 23rd Lifetime Win Over The Pirates

Brooklyn (P)—It's a brand new baseball season but right-hander Sal Maglie is the same old Maglie to the Pittsburgh Pirates.

Maglie made his 200th major league start yesterday and celebrated by holding his Pirate "cousins" to four hits in whipping them 6-1. It was his 23rd lifetime victory over the Bucs against five losses.

Brooklyn backed the crafty veteran with 14 hits, including Gil Hodges second homer in the fourth and Duke Snider's first home run in the seventh inning.

Southpaw Luis Arroyo, tagged with the defeat, was lifted in the fifth for a punch hitter. His four-inning performance wasn't bad considering the Dodger's reputation for mauling lefties. He gave up two runs on four hits, including Hodges' solo blast.

Bob Purkey, Chuck Churn and Nelson King, all right-handers, followed Arroyo to the mound and did little better, giving up 10 hits the rest of the way.

The Pirates capitalized on the only break to score their lone run.

Hank Sauer's Bat Deciding Factor In Victory For Giants

New York, (P)—They laughed when the New York Giants signed 38-year-old Hank Sauer and called him a faded shadow of the man who was voted Most Valuable Player in the National League back in 1952.

"They're desperate, grabbing at straws," the critics charged. "They're trying to plug a hole with a name. They know he's finished."

The big man made them eat their words yesterday at the Polo Grounds.

Many thought Manager Billy Rigney would have done better to start Whitey Lockman, an old Giant favorite, in left field instead of the craggy-faced veteran who was making his last stop with a National League team.

But when it was over Sauer's single had tied the score at 1-1 in the fourth inning and his 250th home run, off Curt Simmons with one on in the sixth, had knocked out the Phillies' ace left-hander. Sauer's hitting plus a three-run homer by Gail Harris was more than enough for a 6-2 victory.

Middleweight Vet Meets Beecham In Miami Ring Tonight

Miami Beach, Fla. (P)—Holly Mims, Washington, D. C., middleweight veteran, ends a five-month ring layoff tonight in the unusual role of a favorite when he meets Jimmy Beecham of Miami in a 10-round television bout.

Mims was figured about 8-5 to gain his 43rd victory in 63 fights. Beecham, who says his own natural fighting weight is the welter division, was an upset decision victim of Mims in their previous meeting here last November.

Mims, 28, hasn't fought since his unanimous decision over Beecham. His victories in 10 years include 12 knockouts, most of them scored with long right smashes. Beecham's handlers said their 22-year-old will "throw the punches" tonight.

Beecham said it would be his last middleweight fight.

NEC will broadcast and telecast at 10 p. m., EST.

Ed Furgol Leading Field of Stars At Las Vegas Tourney

Las Vegas, Nev. (P)—Properly chastised by the weather and the course in the first round, the field of 23 professional golfers tee away today in the second round of the \$40,000 Tournament of Champions.

Leading the field were Ed Furgol of St. Andrews, Ill., the 1954 U. S. Open champion and 27-year-old Arnold Palmer of Latrobe, Pa., who reigned as king of the nation's amateurs in the same year before turning pro.

In these days of sub par scoring, their even par 72 for the Desert Inn Country Club course seemed unique.

But all hands hoped that one of the factors that sent scores high in the first round would be missing today. That would be the hard winds that swept the fairways yesterday, and coupled with cold and intermittent bursts of rain, made life most unhappy.

THE STORY OF MARTHA WAYNE By WILSON SCRUGG

Bugs Bunny Contest Perplexes the Judges; Fighting Decision Gives Prizes to 28 Entries

Kiddies—it was a difficult day of reckoning.

Bugs Bunny contest entries howled so much youthful forethought, intelligence, accurate spotting of hidden objects and downright determination to win that the panel of judges was often in stitches over which entry deserved the nod. Frequently, sheer brute force was the decisive factor.

Kiddies themselves provided an occasional harass — young lady wrote she was seven years old on two of her entries, then on the third admitted to a year less (she was judged with the six year olds — age juggling is a prerogative of females); other contestants failed to send in the three required coupons (one sent just one), another lass colored only the hidden objects and left the rest of the picture a Times-Mirror white.

Judges came in for their share of mistakes—one of the panel snipped right through the center of three entries (but the contestant received an award through no default) and time and again the perplexity of presiding connoisseurs was decided only through the intervention of an impartial passer-by.

In the final arbitration, judges could absolutely not agree on the 10 finest so the contest winds up with 28 winners, all of them deserving. The entries were selected on excellence with others of their age groups. Prizes shall arrive forthwith in the mail.

Winners in the five-year-old age group are:

Linda Hagerman, 9 Bradley Street; Joe DiPierro, RD 1, White House Inn; Judy Mastrian, 2 McPherson Street; Terry Lee Bailor, Grunderville Road, Carl Scout Camp.

Six-year-old winners: Diane Notoro, 806 Pennsylvania Avenue West; Russell Winegardner, 203 North Carver Street.

Seven-year-old winners: Gary Porter, Jackson Street Extension; Kay Gorenflo, 101 Muir Street; Jeff Nugent, 14 South Carver Street.

Eight-year-old winners: Kathy Dickerson, 236 Pleasant Drive; Dennis Bimber, Russell RD 1; Jane Gough, 3 Main Street, North Warren; Barbara Alexander, 1011 Pleasant Drive.

Nine-year-old winners: Kathy Harding, 216 Onondaga Avenue; Frances Hennessy, 78 Fuller Avenue; Cheryl Mastrian, 2 McPherson Street; Carol Kerven, 9 Jackson Avenue; Wayne Nasman, 11 Nesmith Street.

Ten-year-old winners: David Rydholm, 411 West Street; Heidi Link, 26 Brook Street; Beverly Valone, 113 Averil Street; Ronald Knoph, 804 Madison Avenue; Kenneth Olovinn, Clarendon; Kathy Hannold, 12 McKinley Avenue; Pamela Notoro, 806 Pennsylvania Avenue West.

Eleven-year-old winners: Sheryl Coates, 107 Canton Street; Christina Sandblade, 15 Brook Street; Sharyn Stone, 108 Palm Avenue.

INGOT RECORD

Middletown, Ohio. (AP)—Armco Steel Corp. reported yesterday that it produced a record 1,462,000 m tons of ingots in the first quarter this year. President R. L. Gray said the firm operated at 99.7 per cent of its newly rated capacity of nearly 6 million tons annually.

SHEFFIELD FIRE

Thirty-three Volunteer Firemen reported to the township building in response to a call at 8:40 p. m. Thursday, when a large camp on the Blue Jay-Watson Farm road was completely destroyed. The owner, Walter Zablocki of Ford City, with his son and a friend, arrived for the weekend, started fires in the fireplace and a stove and left for Marienville to purchase supplies. The interior of the structure was lined with knotty pine and firemen, returning at 11:15, reported the blaze had gained too much headway for anything to be saved.

FREAK ACCIDENT

A Ridgway area worker was killed Wednesday in a freak accident. Russell Carlson, of Shelby Summit, near Kersey, was killed when splinters from lumber boards broke off and sheared his stomach. Police stated that Carlson, employed at the Hyde Murphy Manufacturing Co., was feeding lumber atop the saw. In some manner the lumber fell from its holdings into the saw, thus shooting splinters in all directions. Several ripped into the victim's abdomen, it was stated. Several of the splinters were more than six inches in length. Coroner Francis DePannis issued a certificate of accidental death. Carlson died at 3:15 p. m. in Elk County General hospital.

Players' Association Is Recognized by Owners

By DON BOTH

St. Louis, (AP) — National Basketball Association players and owners met yesterday in an almost frictionless conference resulting in initial recognition of the Players' Association.

Both Maurice Podoloff, NBA president, and Ed Macauley, spokesman for the players group, described the closed meeting as harmonious.

The 66-year-old Podoloff said he saw an expansion of the league's franchises within a few years. Chicago, Cleveland and Pittsburgh were listed by Podoloff as cities where NBA teams may one day perform.

Indians Score Five Runs In 11th To Beat Tigers

Detroit (AP) — The Cleveland Indians scored five runs in the 11th inning, four on a homer by Rookie Roger Maris, and whipped the Detroit Tigers 8-3 yesterday in their home debut.

George Strickland, a former Pittsburgh Pirate, started the fireworks in the 11th with a double and scored what proved to be the winning run on a sacrifice fly by Bob Avila. The Indians went on to fill the bases and set the stage for Maris' clout, his first in the majors.

Righthander Ray Narleski, hurling the last three innings for the Indians, was credited with the victory. The defeat was charged to Al Aber, the first of five pitchers used by the Tigers. It was the Tigers' third consecutive defeat without a victory.

Speaking of Sports ...

Regarding the track meet here Wednesday, when the Dragons defeated the Titusville thin clads 84 2/3 to 42 1/3, The Titusville Herald sports writer says: Monday's cheers have faded. Titusville High's track team, which looked so good against Rocky Grove, ran into sad times at Warren yesterday. The Rockets could cop only five firsts and became an 84 2/3 to 42 1/3 cropper in their joust with Warren High's hardy Dragons. But, whereas the easy time at Rocky Grove was a surprise, the result at Warren was not. The Dragon school has probably the strongest team in this corner of the state, while the Rockets, handicapped immeasurably by spring weather in their efforts to get into shape, just had to do the best they could and it was not even close to being enough.

Pennsylvania Air Raid Alert System Called One of Finest

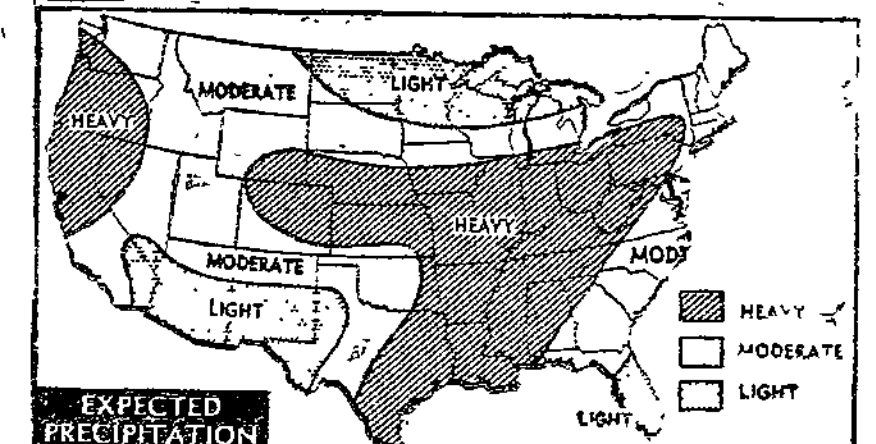

By JOHN KOENIG JR., AP Special Washington Service
Washington (AP)—The coming of age of the guided missile as a military threat to the United States finds Pennsylvania's air raid alert system—one of the nation's finest—ready to cope with any threat, says Richard Gerstell, state civil defense director.
The system, modernized greatly since the days of 1951 when the atom bomb was the great worry of defense experts, has more than paid for itself, Gerstell said in an interview here.
"It's insurance in the form of a penny a head," said Gerstell.
The well-known bell-and-light system costs the commonwealth \$110,000 per year to maintain, he explained, and spreading that over a population of some 11 million persons it amounts to a penny a person.
Fifteen key points in the state are geared to receive air warnings from the air force. An alert received in that way can be relayed in that way can be relayed within four to six seconds to 1,000 points spread throughout the commonwealth. Local warnings then are given—in the form of sirens, fire bells or whistles.
Pennsylvania is well within the 500-mile possible range of a missile fired from a submarine in the Atlantic Ocean, Gerstell said.
Gerstell, one of the most active members of the National Association of State and Territorial Civil Defense Directors, was here for that association's semi-annual three-day meeting.

This Is Spring?

The weather maps below give the U. S. Weather Bureau's long-range forecast until mid-May. It is not a specific forecast in the usual sense, but an ESTIMATE of average temperatures and precipitation for the period.

Temperatures are expected to average below seasonal normals east of the Continental Divide until mid-May, with the exception of a fortunate area along the South Atlantic and Gulf coast states. Floridians will bask in above-normal temperatures and west of the Divide weather is also expected to be springlike.

Precipitation until mid-May is expected to occur in heavy amounts in most areas lying between the Rockies and the Appalachians, except in Northern plains states, the upper Great Lakes and west Texas, where subnormal amounts are indicated. Elsewhere, about normal moisture is expected to fall, except as indicated on map.

Indefinite Recess of General Assembly, Instead of a Final Adjournment, Republican Idea

Harrisburg (AP)—An indefinite recess of the General Assembly, instead of final adjournment, was one Republican leader's reaction today to reports Gov. Leader might call a special session in the heat of the 1958 gubernatorial campaign.

Sen. Albert R. Pechan (R-Armstrong), assistant Republican leader, advanced the recess-instead-of-adjournment idea in a statement, saying:
"I have no doubt the governor would prefer to call us back just before next year's elections to use us for more grandstanding and as a rostrum to sound off for political reasons and not good government reasons."
Republicans have been talking of calling the session quits around June 1.

The talk of possibility of a special session next year stemmed from the governor's drive for passage at this session of the administration program, now hanging fire in committees.
Should that fail, there were some reports the governor might call a special session next year and try it again amid the pressures of a hot political campaign.
A special session would cost a minimum of 500 million dollars. Under the recess plan, legislators would get no additional salary but would draw mileage.
"I personally believe the legislature should not adjourn sine die finally when our work is completed by the end of next month," Pechan said in his statement. "Instead, it is my personal opinion we should simply recess. During the interim, should it become necessary for one reason or another, we would be subject to recall by the Speaker of the House and the Senate president pro tempore. This would make us available at all times and without further cost to the taxpayers."
Should the legislature adjourn finally, "and the governor recalled us," Pechan said, "unquestionably

to further his own personal political ambition to run for the U. S. senate, taxpayers would be loaded with the cost of several hundreds of thousands of dollars."

Should the assembly adjourn finally, the legislators could only come back again at the call of the governor. But, should an indefinite recess be taken the initiative would be shifted to House Speaker W. Stuart Helm, and Sen. M. Harvey Taylor, president pro tempore of the Senate.

Hal Boyle's Column

By HAL BOYLE

New York, (AP)—The Easter hat madness has an unusual victim this year—Blanche Thebom, the only girl in grand opera who can stand on her own hair without bending her knees.

"I feel like I dived into a lily pond, and had come up with a lily on my head," said the Metropolitan Opera star as she put on the first hat she had bought in 14 years.

The beautiful mezzo-soprano gave up hats about the time she started letting her hair grow long. Now it is over six feet in length and the singer who is about 5 feet 7 inches tall, actually can let it down and step on it.

Miss Thebom, who usually gets along by sticking a flower or a jeweled ornament in her hair, went on a bonnet buying spree this season because she is going to England soon. It wouldn't do to bump unexpectedly into Queen Elizabeth

with nothing but a vintage orchid in her tresses.

Blanche isn't a girl who goes in for half-way measures. She descended on the hat shop operated by Mr. John, the noted chapeau designer, with the enthusiasm of a pirate raider.

Her enthusiasm was matched by that of Mr. John, weary at the moment of decorating girls who affect short bobs or even crew cuts.

"For a long-haired woman, the hat simply must be in proportion. Hat design, after all, is basically architecture, which is basically proportion."

Mr. John, whom Napoleon is said to resemble, tosses off bon mots like this all day long.

He came in with half a dozen colorful wide-brimmed hats with such romantic titles as "Meeting in Mayfair," "Brunch with a Beefsteak," and "tea with a total stranger." One hat which was two feet wide

and named "Windsor afternoon" caught Blanche's eye.

"This is a black palace portrait hat," murmured Mr. John, "made of layers of summer black taffeta with a black petticoat brim, caught with a single summer rose, also black."

Intoxicated either by Mr. John's haunting creations, or his haunted descriptions, Miss Thebom wound up with a dozen big-brimmed hats.

"If you're going to wear a hat," said Blanche stoutly, "you might as well wear a mad one, so that a man can look at it condescendingly."

As she left Miss Thebom was heard to mutter:
"I think I'll have a happy Easter—if I don't have to go through too many revolving doors."
